

# Wi-Fi printing

## Windows laptop users

Once you are connected to the library Wi-Fi, open a Google Chrome browser\* on your laptop. Input the following in the URL address bar: <http://wifi>

\*Google Chrome can be downloaded for free from Google

The netloan Wi-Fi print webpage will repeat the following instructions, giving you the relevant links where needed – just follow the steps in your browser.

- 1) Make sure you have a Google account – You'll need your username and password.
- 2) Download the latest version of Cloud Print   
Return to the netloan Wi-Fi print instruction page.
- 3) Register for netloan Wi-Fi print – you'll need your library membership username and PIN.
- 4) Link to the Wi-Fi printer in the library. Return to the netloan Wi-Fi print instruction page.

**You're now ready to print from your laptop!**
